

JASON TILLMAN, BS '04

In May of 2007 I left my engineering job at Lockheed Martin in Liverpool, NY to pursue a Masters Degree in Math Education at NYU. I had been selected as a Math for America Newton Fellow, a program which recruits new graduates and career changers from fields outside of education to become math teachers in the New York City public schools. I've been especially drawn to teaching ever since my "coaching" experiences with PHY101 at SU. I look forward to the chance to make a real difference in my second career.
